

2021*Time : 3 hours**Full Marks : 50*

Candidates are required to give their answers in their own words as far as practicable.

The figures in the margin indicate full marks.

Answer from all the Parts as directed.

Part – A

1. Choose the correct answer from the options given below : 1×5 = 5

(a) The overall description of the data base is known as :

- | | |
|----------------|--------------------|
| (i) Instance | (ii) Schema |
| (iii) Snapshot | (iv) None of these |

(b) Creat, ALTER and DROP is example of :

- | | |
|-----------|--------------------|
| (i) DDL | (ii) DML |
| (iii) DCL | (iv) None of these |

(c) Number of tuple in a relation is known as :

- (i) Cardinality
- (ii) Degree
- (iii) Modality
- (iv) None of these

(d) To substitute any null value with a user specified value we use :

- (i) To-CHAR function
- (ii) NVL function
- (iii) Data function
- (iv) None of these

(e) In which Authorization Command of SQL use ?

- (i) Access
- (ii) Allow
- (iii) Grant
- (iv) None of these

2. Fill in the blanks :

1×5 = 5

(a) A repository of information about a data base is known as metadata.

(b) . symbol is a terminator for SQL.

(c) / command from SQL prompt is used to terminate from SQL.

(d) _____ data types is used to store variable length character strings containing up to 2GB.

(e) BCNF Stands for Boyce codd Normal form.

Part - B

Answer any four questions of the following :

3×4 = 12

3. (a) Explain the Primary key and foreign key constraint.
- (b) Explain the Grant and Revoke command.
- (c) Explain PL/SQL block structure. Also mention advantages of PL/SQL.
- (d) What is Trigger ? Explain the different types of trigger.
- (e) Describe the System Global Area (SGA) of oracle.
- (f) What is referential Integrity ?

Part - C

Answer any four questions of the following :

7×4 = 28

4. (a) Write a PL/SQL block to find the factorial of a given number.

- (b) Write a PL/SQL code to calculate the area of a circle, for a value of radius varying from 2 to 5. Store the radius and corresponding values of calculated area in a table called areas with two Columns-radius and area.
- (c) Write a PL/SQL code to Accept your city name in lower case and change it into upper case.
- (d) What is RDBMS ? How it differs from simple data base ? What are the advantages of RDBMS.
- (e) What is View ? What is the procedure for replacing and deleting a view. Explain with suitable example,
- (f) Explain the following :
- (i) DML
 - (ii) DCL
 - (iii) DDL
